

## **Engr. Joshua M. Bingcang**

Senior Vice President for Conversion and Development Group  
Head, New Clark City Project Management Office

Engr. Joshua Bingcang is the Senior Vice President for Conversion and Development Group of the Bases Conversion and Development Authority. He was the Officer-In-Charge of the Clark International Airport Corporation (CIAC) from 2019 to 2020. He is also the Head of the New Clark City Project Management Office.

Holding a critical position, he takes the lead in managing and supervising BCDA's biggest development projects and in making important decisions on the agency's business development contracts with reputable private local and international companies assuring that such are most advantageous to the Philippine government.

Before his rise to the top management of BCDA, he was formerly project manager of the Subic Clark Tarlac Expressway Services Department. His main task was the supervision of the construction and maintenance of the 94-kilometer expressway--the longest toll road in the Philippines traversing three provinces in Central Luzon. SCTEX now serves as an important road infrastructure linking the Subic Freeport Zone, the Clark Freeport Zone and the Central Techno Park in Tarlac.

Currently, he has his hands full with one of the biggest projects pioneered and spearheaded by BCDA - the 9,450-hectare New Clark City. New Clark City is the most modern, smart and green urban development in the country. He also leads the expansion project for Clark International Airport.

He holds a Master's Degree in Business Administration from the University of the Philippines and a Bachelor's Degree in Electrical Engineering from Holy Angel University. He also attended Executive Training Programme in Urban Policy and Governance from Nanyang Technological University and Public-Private Partnerships in Infrastructure from Harvard Kennedy School.
